New Americans in the Michiana Region
A Snapshot of the Demographic and Economic Contributions of Immigrants in the Region

Population Growth

Between 2011 and 2016, the population in the region grew by 0.8%.

The immigrant population increased 8.1%.

Number of immigrants living in the Michiana region in 2016. They made up 6.3% of the overall population.

Top five countries of origin for immigrants living in the region:

1. Mexico . . . . . . . . . . . . . . . . . . . . . . . . 43.9%
2. China . . . . . . . . . . . . . . . . . . . . . . . . 4.9%
3. India . . . . . . . . . . . . . . . . . . . . . . . . 4.6%
4. Canada . . . . . . . . . . . . . . . . . . . . . . . . 3.6%
5. Philippines . . . . . . . . . . . . . . . . . . . . . 2.3%

Share of overall population growth in the region attributed to immigrants between 2011 and 2016:

- Total population: 717,627 → 723,462
  - 0.8%
- Immigrant population: 42,121 → 45,543
  - 8.1%
ELKHART, MARSHALL, & ST. JOSEPH COUNTIES IN INDIANA

33,929

They made up 6.6% of the overall population.

Between 2011 and 2016, the population in the area grew by 1.3%.

The immigrant population increased 8.4%.

Total population
510,056 → 516,781

Immigrant population
31,303 → 33,929

Share of overall population growth in the area attributed to immigrants:
39.0%

Top five countries of origin for immigrants living in the counties:
1. Mexico ............... 49.5%
2. China ................ 5.6%
3. India .................. 3.8%
4. Canada ............... 2.8%
5. Philippines .......... 2.1%

BERRIEN AND CASS COUNTIES IN MICHIGAN

11,614
Number of immigrants living in Berrien and Cass counties in Michigan in 2016.

They made up 5.6% of the overall population.

Between 2011 and 2016, the population in the area decreased by 0.4%.

The immigrant population increased 7.4%.

Total population
207,571 → 206,680

Immigrant population
10,818 → 11,614

Had the foreign-born population stayed the same as it was in 2011, the decline in the population in the counties would have been even greater, falling by 0.8%.

Top five countries of origin for immigrants living in the counties:
1. Mexico ............... 27.3%
2. India .................. 7.0%
3. Canada ............... 6.0%
4. Brazil ................. 3.9%
5. Germany ............. 3.6%
In 2016, foreign-born residents in the Michiana region contributed $3.1B to the area’s GDP.\(^2\)

Given their income, immigrants contributed significantly to state and local taxes, including property, sales, and excise taxes levied by state or municipal governments.

<table>
<thead>
<tr>
<th>Amount earned by immigrant households in 2016:</th>
<th>$1.2B</th>
</tr>
</thead>
<tbody>
<tr>
<td>$212.8M went to federal taxes.(^3)</td>
<td></td>
</tr>
<tr>
<td>$103.0M went to state &amp; local taxes.(^4)</td>
<td></td>
</tr>
</tbody>
</table>

Leaving them with $880.3M in spending power.

This means that foreign-born households held 6.9% of all spending power in the Michiana region, more than their share of the region’s overall population.\(^5\)

**ECONOMIC CONTRIBUTIONS**

**SPOTLIGHT ON**

Nitesh Chawla

Professor at the University of Notre Dame & Founder of Aunalytics

After earning his doctorate in computer science from the University of South Florida, Indian immigrant Nitesh Chawla took a position creating consumer behavior analytics models at a Toronto bank. Still, he yearned to pursue his dream of becoming an academic and an entrepreneur. In 2004, he took a pay cut and moved to South Bend to become a research assistant professor in biometrics at the University of Notre Dame. “I felt this deep passion to have my work make a difference and create a lasting impact,” says Chawla, 43. “I believed that machine learning could benefit the common good.”

By 2007, he was on the tenure track and started a research lab that focuses on applying machine learning and network science algorithms to healthcare, environmental sciences, education, and national security. “We’re tackling big issues like successful aging and infant mortality,” he says. The award-winning research and excellence in the classroom earned him an endowed full professor position in 2016, and he twice won Notre Dame’s Outstanding Teaching Award. To date, Chawla’s lab has nurtured 30 PhD students, eight post-doctoral scholars, and helped bring the university $27 million in research funding.

In 2012, he founded Aunalytics, a data science software company that helps businesses solve problems through data analysis, with Graham Allen Partners, an investment firm started by former Notre Dame football player Tracy Graham. Located in South Bend’s Ignition Park technology center, the company now has 38 employees, about 80 percent of whom are American-born. “It’s really a homegrown story of South Bend,” says Chawla. “My employees are all doing innovative work and contributing to the economy. People are becoming homeowners. They’re raising families.” In 2013, the South Bend Regional Chamber named Chawla one of “Michiana Forty Under 40.”

Chawla became a citizen in 2015, and loves his adopted city. He says he has always felt embraced by the community. “It’s really amazing to be able to pursue your dream and see it impact many lives,” he says. “South Bend is a beacon of American hope and innovation. It provides an environment for people to achieve their best and create opportunities where none existed before. Your only limitation is the size of your dream.”

* Working-age refers to people ages 16-64 years old.

Immigrants play a critical role in several key industries in the region, making up significant shares of the workforce in 2016:

- Agriculture: 24.3%
- Manufacturing: 11.0%
- Education: 9.5%
- Hospitality & Recreation: 9.1%
- Healthcare: 8.0%

Because of the role immigrants play in the workforce helping companies keep jobs on U.S. soil, we estimate that by 2016, immigrants living in the region helped create or preserve 2,095 local manufacturing jobs that would have otherwise vanished or moved elsewhere.12

Immigrants tended to concentrate in these occupations in the region in 2016:

1. Laborers & Movers ............... 4.7%
2. Postsecondary Teachers .......... 4.3%
3. Assemblers & Fabricators ........ 4.0%
4. Production Workers .............. 3.3%
5. Agricultural Workers ............ 3.1%

Other occupations 80.6%
Although the foreign-born made up 6.6% of the region’s overall population, they represented 8.7% of its working-age* population, 8.2% of its employed labor force, and 7.2% of STEM workers in 2016.

Because of the role immigrants play in the workforce helping companies keep jobs on U.S. soil, we estimate that by 2016, immigrants living in the counties helped create or preserve **534** local manufacturing jobs that would have otherwise vanished or moved elsewhere.
Rafat & Zoreen Ansari

Founders of the Sonya Ansari Center for Autism

After completing his fellowship in hematology-oncology at Indiana University, Rafat Ansari joined a practice in South Bend. At the time, the Pakistani native was one of a handful of Muslims in this mostly Christian city, but he says the community welcomed him. “I was able to blend in quickly and made new friends,” he says. “I got into Notre Dame football. That’s important in South Bend.”

In 1981, Ansari married his childhood friend Zoreen from his hometown in Karachi who had also studied medicine. She joined him in South Bend, but the closest internship she could find was at Ball Memorial Hospital in Muncie, nearly three hours away. “I’d have to leave at 3 a.m. in the snow to make 7 a.m. rounds,” recalls Zoreen. Fortunately, a few years later, she was able to finish her residency in family medicine at South Bend’s Memorial Hospital.

Then in 1994, the couple learned their young daughter Sonya was autistic. The city had few services for autistic children, and the Ansaris saw an opportunity to make an impact. “I left my job to advocate for my daughter and other children with autism,” says Zoreen. Together, she and Rafat established the Sonya Ansari Center for Autism, which provides a vital support network along with applied behavioral therapy, parent training and social skills classes. Today the organization serves several hundred patients a year through the Logan Center, a nonprofit for people with intellectual and developmental disabilities. In 2011, the couple was inducted into the South Bend Hall of Fame.

Last year, the Ansaris found a new outlet for their philanthropy. They donated $15 million they had earned through investments to the Notre Dame School of Global Affairs to create the Ansari Institute for Global Engagement with Religion. “We realized that so many of the world’s conflicts are brought about by religion and wanted to promote peace,” says Rafat. The institute’s students represent a diverse spectrum of religions and ethnicities. Twenty-two of the 29 are international. “Immigrants make such a contribution to society,” Rafat says. “In many cases, they have come here after much struggle and have something to prove. Their dream is to find their place in the American dream.”

ENTREPRENEURSHIP

Despite making up 6.3% of the overall population, immigrants represented 8.6% of the entrepreneurs in the Michiana region in 2016. About 2,168 foreign-born people worked for their own businesses, generating $48.9M in business income.

In the region, immigrants were 10.0% more likely to be entrepreneurs than their U.S.-born counterparts.

| Share of foreign-born who were self-employed in 2016: | 8.6% |
| Share of U.S.-born who were self-employed in 2016: | 7.5% |

## COUNTIES IN INDIANA

Despite making up **6.6%** of the overall population, immigrants represented **9.1%** of the entrepreneurs in the Indiana counties in 2016.

In the counties, immigrants were **11.2%** more likely to be entrepreneurs than their U.S.-born counterparts.

| Share of foreign-born who were self-employed in 2016: | 7.6% |
| Share of U.S.-born who were self-employed in 2016: | 6.8% |

## COUNTIES IN MICHIGAN

Despite making up **5.6%** of the overall population, immigrants represented **7.8%** of the entrepreneurs in the Michigan counties in 2016.

In the counties, immigrants were **10.9%** more likely to be entrepreneurs than their U.S.-born counterparts.

| Share of foreign-born who were self-employed in 2016: | 10.3% |
| Share of U.S.-born who were self-employed in 2016: | 9.3% |
Immigrants were more likely to have a bachelor’s degree or higher in 2016.

Share of population over age 25 with a bachelor’s degree or higher:
- 23.5% of U.S.-born
- 29.0% of Immigrants

Share of population over age 25 with an advanced degree:
- 8.6% of U.S.-born
- 14.5% of Immigrants

1,647 students who were enrolled in Michiana colleges and universities during the fall of 2015 were temporary residents. International students supported 1,105 local jobs and spent $80.4M in the 2016-17 academic year.

Immigrants make up 2.5% of students under age 18 who attended public schools in the region in 2016.

Immigrants were more likely to have a bachelor’s degree or higher in 2016.

Share of population over age 25 with a bachelor’s degree or higher:
- 23.3% of U.S.-born
- 23.7% of Immigrants

Share of population over age 25 with an advanced degree:
- 8.3% of U.S.-born
- 11.4% of Immigrants

Immigrants made up 2.8% of students under age 18 who attended public schools in the counties in 2016.
Immigrants were more likely to have a bachelor's degree or higher in 2016.

Share of population over age 25 with a bachelor's degree or higher:
- 23.8% of U.S.-born
- 44.4% of Immigrants

Share of population over age 25 with an advanced degree:
- 9.1% of U.S.-born
- 23.7% of Immigrants

Immigrants made up 1.8% of students under age 18 who attended public schools in the counties in 2016.

**HOUSING WEALTH**

In 2016, 50.5% of immigrants in the region owned their own homes, compared to 65.2% of the U.S.-born.

37.2% of immigrants were renters.

In 2016, 57.7% of immigrant households lived in houses... And 21.1% lived in apartments.

The total property value of immigrant households was $1.6B.

Their total annual rent was $52.2M.
In 2016, **53.3%** of immigrants in the region owned their own homes, compared to **63.6%** of the U.S-born. **41.7%** of immigrants were renters.

In 2016, **62.3%** of immigrant households lived in houses and **22.1%** lived in apartments. **15.6%** lived in other types of housing or did not respond.

In 2016, **41.1%** of immigrants in the region owned their own homes, compared to **69.0%** of the U.S-born. **26.7%** of immigrants were renters.

In 2016, **46.8%** of immigrant households lived in houses and **18.9%** lived in apartments. **34.3%** lived in other types of housing or did not respond.
NATURALIZATION

MICHIANA

32.8% Naturalized

Share of immigrants who were naturalized citizens in 2016. This constitutes 14,959 immigrants.

25.4% Potentially eligible

Share among the 30,584 who were not citizens but potentially eligible for naturalization. This constitutes 7,768 immigrants.

COUNTIES IN INDIANA

32.8% Naturalized

Share of immigrants who were naturalized citizens in 2016. This constitutes 11,135 immigrants.

24.7% Potentially eligible

Share among the 22,794 who were not citizens but potentially eligible for naturalization. This constitutes 5,631 immigrants.

COUNTIES IN MICHIGAN

32.9% Naturalized

Share of immigrants who were naturalized citizens in 2016. This constitutes 3,824 immigrants.

27.4% Potentially eligible

Share among the 7,790 who were not citizens but potentially eligible for naturalization. This constitutes 2,137 immigrants.
When he graduated from Iraq’s Technology Institute in 1991, Baghdad native Husam Abdulameer opened a business servicing hydraulic equipment. He married, had three children, and also opened a neighborhood convenience store. But when American soldiers began patronizing the store, trouble arose. “People thought I was giving the Americans information about the neighborhood,” Abdulameer says.

He started receiving death threats and someone made an attempt on his life. The family appealed to the United Nations, were granted refugee status, and in 2010, moved to Indiana. The adjustment wasn’t easy. “When you change your country, you have to change everything,” he says. “It’s hard at first, but we’re doing well. There’s low crime, and good jobs here.”

Today, Abdulameer works at the Food Bank of Northern Indiana, where he stocks the warehouse with donations from local grocery stores, drives a delivery truck, and helps with construction projects, like renovating the Food Bank’s bathrooms. He says that working for such an altruistic organization has helped him to feel like a part of the community. “The pay is low, because it’s a nonprofit,” Abdulameer says. “But I love helping people through my work. I feel like it is my duty to help, because other people helped me when I got here. The Food Bank is my family and home.”

Ever the entrepreneur, Abdulameer realized that he could supplement his income in a way that also helped to improve the community. Within a few years of settling in Indiana, he started to purchase distressed homes and rehab them for resale. He has flipped a handful of homes so far, but he is excited about possibilities for growth. “I invest my own money and buy each house with cash. Then I do all the construction work myself. It’s growing little by little.”

Abdulameer never thought he’d have to leave his native Iraq, but he has committed to building a new life in the United States. “This is my country now,” he says. “I couldn’t live in Iraq again. America gave us almost everything in our life: a future, freedom.”
