

Refugees in Kansas

A Snapshot of the Demographic and Economic Contributions of Refugees

Refugees have an enduring legacy on the American communities they have come to call home, and cities and towns across the United States have seen firsthand the significant positive economic impact that has come with resettling this population. Refugees have entrepreneurship and homeownership rates that far exceed that of other immigrants. Many aging and once declining communities—from Utica, New York to St. Louis, Missouri—have credited young, entrepreneurial refugees with reinvigorating their local economy and commercial main streets.
