New Americans in Southwest Kansas

The Demographic and Economic Contributions of Immigrants in the Region

Population

29,600 immigrants lived in the Southwest Kansas region in 2019. Immigrants made up 21.7% of the total population in the region in 2019. Between 2014 and 2019, the total population in the region decreased by 2.2%. The immigrant population increased by 2.8% during the same time period. Without the growth in the immigrant population, the decline in the region's population would have been greater, falling by 2.8%.

Demographics

11.5% of immigrants in Southwest Kansas are recent arrivals, with no more than 5 years of residency in the United States, meaning 88.5% of immigrants in the region have resided in the United States for longer than 5 years. In the region, immigrants are 61.8% more likely to be of working-age than their U.S.-born counterparts, allowing them to actively participate in the labor force and contribute to the economy as taxpayers and consumers.

Shares of population by age groups:

- U.S.-born: 53.8% (16-64), 32.6% (0-15), 13.6% (65+)
- Immigrant: 87.0% (16-64), 7.2% (0-15), 5.8% (65+)

Among the U.S.-born residents, age group of 0 - 15, 39.7% were children of immigrants.

Without the growth in the immigrant population, the decline in the region's population would have been greater, falling by 2.8%.
Demographics continued

13,200 immigrants living in the region had limited English language proficiency, making up 44.6% of the immigrant population.7

The top countries of origin for immigrants living in the region:
- Mexico (68.7%)
- Guatemala (7.7%)
- El Salvador (5.4%)
- Vietnam (2.9%)
- Other Countries (15.3%)

Share of population by ethnic groups8:

67,900 commuters worked in the region in 2019. Of these, 29.4%, or 19,900 commuters, in the region were foreign-born.

Among immigrants that had limited English language proficiency, the top language spoken at home other than English was Spanish (88.9%).

7 For the purpose of this report, we define people with limited English language proficiency as the ones who do not speak English at all or do not speak English well.
8 U.S. Census Bureau, 2020
Spending Power & Tax Contributions

Given their income, immigrants contributed significantly to taxes, including property, sales, and excise taxes levied by state and local governments.

In 2019, immigrant households\(^9\) in Southwest Kansas earned $787.8 million. This means that foreign-born households held 24.7% of all spending power in the region.

- $112.8 million went to federal taxes\(^10\)
- $79.6 million went to state & local taxes\(^11\)
- $595.4 million left in spending power

In 2019, foreign-born residents in the region contributed $2.4 billion to the region’s GDP, or 26.5% of the total.\(^12\)

Immigrants in the region also supported federal social programs. In 2019, they contributed

- $90.7 million to Social Security
- $22.2 million to Medicare

93% of immigrants in the region received Medicare or Medicaid, compared with 32.2% of U.S.-born residents in 2019.

About 69.6% of U.S.-born had private healthcare coverage\(^13\), while 32.6% had public healthcare coverage.

About 65.2% of immigrants had private healthcare coverage, while 9.5% had public healthcare coverage.

Given their household incomes, 27.6% of immigrants live at or below 150% of the federal poverty threshold as compared to 25.5% of U.S.-born residents.

9 Immigrant households refer to people living in a housing unit with an immigrant being the head of their unit.
12 These figures derive from our calculations based on immigrants’ share of wage income and self-employment income in the 5-year ACS sample from 2019 and the statistics of GDP from the U.S. Bureau of Economic Analysis.
13 Including people who have both public and private healthcare coverage.
New Americans in Southwest Kansas

**Ehlam Abdalla**  
*Sudanese Refugee*

Ehlam Abdalla grew up as a child of farmers in rural Sudan. She remembers her early life as happy but, when she was still a young child, violence from the Second Sudanese Civil War hit their village. Many families were dispersed. "We spent years moving from safe area to safe area," she said. Eventually, they fled to Jordan. In November 2016, after three years in a refugee camp, Abdalla learned she was being resettled in the United States. She was 30 by then, married with a family of her own. "I didn’t know what to expect in America," she said. "But I knew it would be a safe place to provide a better future for my children."

When they landed in Kansas, a case manager from the International Rescue Committee met them at the airport and took them to a hotel. Over the next several weeks, they helped Abdalla and her family secure housing, medical care and social security cards. Later, Catholic Charities stepped in to connect Abdalla to the Kansas Works Office, a local workforce development organization that partners with various state agencies. Through KWO, Abdalla found a job at Walmart and her husband found employment at the Tyson meatpacking plant.

Today, after a lifetime of instability, Garden City has given the family the safety and stability she only dreamed of having during the Sudanese Civil War. “Garden City is a small town,” says Abdalla, who just welcomed her fourth child. “It’s very safe here and the people are very nice. Especially the people working for Catholic Charities. I never imagined that there would be as nice people as those. They helped me with everything.”

And now, in return, Abdalla is helping the community that helped her. Her role at Walmart is in the pharmacy department, stocking over-the-counter medications to ensure the health of her neighbors. “It’s a very good place to work,” she says. “I hope one day other refugees abroad will have the opportunity to come live here safely too.”

**Jesus Carlos Rivera**  
*First Generation Immigrant*

In 1993, Jesus Carlos Rivera, his wife and their four children, ages 12 through three, immigrated from their native Mexico to Dodge City. Rivera's sister-in-law is a U.S. citizen and was already living in Kansas. She told the family that the United States offered more opportunities and offered to sponsor them. Rivera was hesitant at first; he worked in a bottle factory for Coca-Cola making $60 per week, which afforded the family “a decent living,” he says. And he’d already been with the company for 18 years, working his way up to sales supervisor, so the prospect of starting over in a new country was daunting. “But I decided to put it in God’s hands,” he says.

Acclimating to life in their new hometown was challenging. The cost of living was higher than in Mexico. So, after years working as a stay-at-home mother, Rivera’s wife rejoined the workforce. Both she and Rivera work at Cargill Meat Solution. Rivera pulled double shifts, preparing and packaging beef for sale. Meanwhile, their children missed their friends and struggled with the language barrier in school.

Luckily, after months of hard work, the Riveras began to see progress. They saved up and moved out of their in-law’s home and into their own rental. Their children learned English, made new friends and earned good grades. And the family joined a Christian church, where they found community and support. In 1997, Rivera got a new job working for National Beef packaging meat for distribution to stores and restaurants and for export. Five years later, the family purchased their first home.

Now in his sixties, Rivera still works for National Beef — although he no longer has to work double shifts to make ends meet. His career made it possible for his four children to go to college. “I take a look back and see if we had not moved here, I would not have been able to provide the same opportunities to my children they’d had here,” he says. “My daughter often tells her siblings ‘thanks to the sacrifice my dad made for us, we have a better future.’ Hearing her say that affects me deeply emotionally,” Rivera says. “Without me saying anything, she recognizes our sacrifice.”
Immigrants played a critical role in several key industries in the Southwest Kansas region. Here are the percentages of workers in these industries that are immigrants:

- **Manufacturing**: 60.6%
- **Construction**: 37.5%
- **Transportation and Warehousing**: 37.0%
- **Agriculture**: 34.9%
- **Hospitality**: 24.7%
- **General Services**: 24.2%
- **Retail Trade**: 23.0%
- **Professional Services**: 20.5%
- **Education**: 16.5%
- **Health Care and Social Assistance**: 14.5%

Immigrants have also been playing vital roles in critical industries that have kept the country functioning throughout the COVID-19 crisis. Immigrants in the Southwest Kansas region continue working in these frontline and essential industries:

- **Food Manufacturing**: 6,400 immigrants made up 67.9% of the workforce.
- **Construction**: 2,000 immigrants made up 37.5% of the workforce.
- **Transportation and Warehousing**: Immigrants made up 37.0% of the workforce.
- **Agriculture**: 2,200 immigrants made up 35.2% of the workforce.
- **Food Service**: Immigrants made up 18.3% of the workforce.
- **Essential Services**: Immigrants made up 18.1% of the workforce.
- **Healthcare**: 7,600 immigrants made up 15.9% of the workforce.

14. General services include personal services (e.g. laundry services, barber shops, and repair and maintenance), religious organizations, social services, and labor unions.

15. Professional services. Most of these industries include professions that require a degree or a license, such as legal services, accounting, scientific research, consulting services, etc.

16. This includes food industries such as dairy product manufacturing, animal slaughtering and processing, and fruit and vegetable preserving.

17. This includes industries engaged in the construction of buildings or non-building projects (such as highways, bridges, and railroads), and related specialty trade contractors.

18. This includes transportation industries including air, rail, water, and truck transportation, bus services and urban transit, and taxi service, as well as postal service and warehousing and storage.

19. This includes crop production, animal production, and aquaculture.

20. This includes restaurants, drinking places, and other food services.

21. These include services essential for daily living, such as building cleaning, waste management, auto repair, and veterinary services.

22. This includes healthcare facilities such as offices of physicians, hospitals, outpatient care centers, nursing care facilities, and home health care services.
**Workforce continued**

Immigrants tended to work in these occupations in Southwest Kansas in 2019. Here are the percentages of immigrants who work in these occupations:

- Meat, Poultry, and Fish Processing Workers (12.4%)
- Other Agricultural Workers (7.2%)
- Truck Drivers (5.9%)
- Laborers and Freight, Stock, and Material Movers, Hand (5.2%)
- Janitors and Building Cleaners (4.9%)
- Construction Laborers (3.6%)

Due to the role immigrants play in the workforce helping companies keep jobs on U.S. soil, we estimate that immigrants living in the region had helped create or preserve 1,400 manufacturing jobs that would have otherwise vanished or moved elsewhere by 2019.23

**Top Occupations for Female Workers:**

Meat, Poultry, and Fish Processing Workers .......... 14.3%

**Top Occupations for Male Workers:**

Meat, Poultry, and Fish Processing Workers .......... 11.5%
Other Agricultural Workers ...................... 10.0%
Truck Drivers ................................................ 9.0%

**Entrepreneurship**

1,800 immigrant entrepreneurs generated

$63.7 million in business income for Southwest Kansas.

While making up 21.7% of the population, immigrants made up 21.6% of the business owners in the region in 2019.

While 13.8% of the U.S.-born population were entrepreneurs, 8.8% of foreign-born residents worked for their own businesses.

New Americans in Southwest Kansas

**Education**

Share of the Southwest Kansas region’s population aged 25 or above that held a bachelor’s degree or higher in 2019:

- **22.3%** of U.S.-born
- **5.0%** of immigrants

7.0% of K-12 students in the region were foreign-born in 2019.

45.5% of K-12 students in the region were children of immigrants in 2019.

---

**University Population**

90 students enrolled in colleges and universities in Southwest Kansas in fall 2019 were temporary residents.24

- International students supported 3 jobs in higher education and other areas including accommodations, food, and transportation.
- International students contributed $762,158 in the 2019-2020 academic year.25

---

**Housing**

In 2019, 67.3% of immigrant households in Southwest Kansas owned their own homes, compared to 67.2% of U.S.-born households.

- Immigrant households in Southwest Kansas
  - 61.8% Lived in Houses
  - 10.5% Lived in Apartments
  - 27.7% Lived in Other Types of Housing

The total property value of immigrant households was $997.0 million.

- 32.7% of immigrant households were renters. Their total annual rent paid was $27.5 million.

- 61.9% of immigrant households in the Southwest Kansas region had access to broadband connection in their place of residence compared to 76.1% of U.S.-born households in 2019.26

---

24 Data on total student enrollment in the region is derived from the Integrated Postsecondary Education Data System maintained by the National Center for Education Statistics. Temporary residents refer to people who are not U.S. citizens or permanent residents.

25 Economic data is derived from the International Student Economic Value Tool maintained by NAFSA, the association of international educators.

26 This data point reports whether the respondent or any member of their household subscribed to the Internet using broadband (high speed) Internet service such as cable, fiber optic, or DSL service.
New Americans in Southwest Kansas

Naturalization

30.4% of households in Southwest Kansas had at least one foreign-born resident in 2019.

If all immigrants who are eligible to naturalize became U.S. citizens, their earning potential would increase by +8.9%.

Refugees

2,000 refugees, or 6.8% of the foreign-born population in Southwest Kansas, were likely refugees in 2019.

DACA-Eligible Population

1,600 DACA-eligible people in Southwest Kansas in 2019. They made up 5.4% of the foreign-born population.

---

27 An immigrant is eligible to naturalize if they are documented, have resided in the United States for five years or more, and speak English well or fluently, as well as immigrants in military service who meet certain requirements such as speaking English well. Those who do not fit these criteria are deemed to be not eligible or currently ineligible to naturalize.

31 DACA-eligible population are identified as a subset of the total undocumented population, we apply the guidelines for DACA from United States Citizenship and Immigration Services (USCIS) to determine the immigrants in Southwest Kansas who are potentially eligible for DACA. More on our methodology here: https://www.newamericaneconomy.org/methodology/.
Undocumented Immigrants

12,700\textsuperscript{32}
undocumented immigrants\textsuperscript{33} lived in the Southwest Kansas region in 2019. They made up 42.8% of the foreign-born population.

Undocumented immigrants are highly active in the labor force. About 90.7% are of working-age in the region.

Undocumented immigrants by age group:

In 2019, undocumented immigrant households\textsuperscript{34} in the region earned $251.0 million:

- $15.2 million went to federal taxes\textsuperscript{35}
- $12.8 million went to state & local taxes\textsuperscript{36}
- $223.0 million left in spending power, or 9.2% of total spending power in the region.

The top countries of origin for the undocumented population in the region:

- Mexico (70.5%)
- Guatemala (16.5%)
- El Salvador (8.6%)
- Other Countries (4.4%)

32 The Pew Research Center estimates the undercount as 5% to 7% for undocumented immigrants and 2% to 3% for the overall immigrant population.

33 Undocumented immigrants are identified by applying the methodological approach outlined by Harvard University economist George Borjas in his work, “The Labor Supply of Undocumented Immigrants.” Immigrants who do not meet a set of criteria for legal status are identified as being undocumented. More on our methodology here: [https://www.newamericaneconomy.org/methodology/](https://www.newamericaneconomy.org/methodology/)

34 Undocumented immigrant households refer to people living in a housing unit with an undocumented immigrant being the head of their unit.

New Americans in Ford County

Population

8,800

immigrants lived in Ford County, Kansas, in 2019.

Between 2014 and 2019, the total population in the county decreased by 1.2%.

The immigrant population decreased by -3.8% during the same time period.

Immigrants made up 25.8% of the total population in the county in 2019.

Workforce

93.3%

of immigrants in Ford County were employed in 2019.

Housing

In 2019,

59.5%

of immigrant households in Ford County owned their own homes, compared to 40.5% of U.S.-born households.
